

Assisted Living and Elder Care

The Medication Program at WEINBERG VILLAGE provides peace of mind for its residents. The Director of Nursing monitors the following services:

- **Ordering and Delivery of Medications**
- **Medication Preparation and Administration**

The Incontinence Program at WEINBERG VILLAGE is monitored by the Director of Nursing. An assessment of residents' needs is provided and specific care plans are developed. Weinberg's trained certified nursing assistants assist the residents. The program includes the following:

- **Scheduled toileting**
- **Personal care monitoring**
- **Assistance with Depends™ and other devices**
- **Additional housekeeping as needed**

The cost of incontinency items are additional.

The Extended Congregate Care Program at WEINBERG VILLAGE offers a higher level of service under a specific license above an assisted living license. For example, if a resident would like a customized level of service, such as daily showers and or sitter/companion, the Director of Nursing will tailor a program to suit a resident's needs. Additionally, certain needs that require more specific nursing care can be met under this license

Monthly rate for extended care will be determined at time of assessment.
